

(5) **Christmas Trees.**

- (a) Only fresh green native trees may be placed in the school buildings.
- (b) The butt of the tree should be recut on an angle one inch above the original cut just prior to the setting of the tree.
- (c) Trees must be placed with the base in water and that water level kept above the cut the entire time the tree is indoors.
- (d) The tree must be properly supported and must be located away from heat sources, exit ways, and not in hallways in a manner, which will impede normal traffic flow.
- (e) If tree lights must be used, off-the-tree floodlighting, located no closer than three feet from the tree, is permi
