5.60.017-P Community Involvement in Principal Selection and Assignment

I. General Policy on Community Involvement in Principal Selection

(1) The selection of principals is a critical decision in determining the success of each school, including the capacity of the school to meet its school improvement goals and the strategic objectives of the district. Procedures will be established to involve stakeholders in decision-making in order to produce the best outcome. This policy is not intended to limit the ability of the district to fill vacant positions in a timely manner with the most qualified candidates.

II. Developing Selection Criteria

(1) When a school principal vacancy is identified, the superintendent or designee and a human resources administrator will confer with
