

Transportation Information in Synergy

If you scroll down further on the “Other Info” tab in Synergy you will see additional transportation information, including, pick-up and drop-off stops, routes and times. Currently, this information is for reference only and it should not be edited.

“Transport Code” reflects a student’s eligibility for transportation. “B” and “H” both mean the student is eligible for transportation, “W” means walk and the student is not eligible.

The screenshot displays the Synergy system interface. At the top left, a dropdown menu labeled 'Transportation' is expanded, showing a 'Transport Code' field. A red box highlights this field, with a red line connecting it to the explanatory text box above. Below the 'Transport Code' field, there is a section titled 'Other Information' which is also expanded. A red box highlights a table within this section, showing columns for 'Student', 'Transportation Code', 'Pickup Location', 'Dropoff Location', 'Route', and 'Time'. The table contains several rows of data, including student names like 'J. J. J.', 'M. M. M.', and 'S. S. S.', and various transportation codes and locations. A red line also connects the top of this table area to the explanatory text box above.
